SPECIAL TOPICS WE'RE STUDYING

Language Arts- We are doing such a cool writing project using the Promethean board. We make our way through a haunted house stopping along the way to web what we see and hear, what the objects are doing and what we are doing. With the web in hand we write the story room by room, paragraph by paragraph. The kids are begging to write!!!!

Math - The students are working on rounding. They must round to the nearest ten, hundred, and thousand. Remember, as parents, you may access the math book website. The actual text pages are there as well as activities you may do with your child. Chapter 3 test will be Oct. 19.

Science- We worked in our science notebooks and are still discovering the Scientific Method. Our next activity was "I've Got Rhythm" in which we took our pulse while resting, walking, and running. We organized our data into bar graphs. We also drew conclusions based upon our data.

Social Studies - We discussed map coordinates and then played a game similar to Battleship. It made learning so much more interesting!

LOOKING TO THE FUTURE

Oct. 11- Columbus Day - No School
Oct. 12-No school-Teachers' Institute
Oct. 13-"Hot Spots" due
Oct. 15- End of 1st quarter
